SUMMARY

B.Tech Information Technology graduate with hands-on experience in Full Stack and mobile application development using React Native, PHP, MySQL, HTML, CSS, and JavaScript. Familiar with Agile and Scrum methodologies, sprint planning, iterative development, testing, and team collaboration. Experienced in developing REST APIs and database-driven applications. Passionate about Artificial Intelligence, Generative AI, and building intelligent, scalable software solutions, with a strong willingness to learn emerging technologies and contribute to innovative projects.

TECHNICAL SKILLS

Core Technologies: Java, SQL, JavaScript
Frontend: HTML, CSS, React
Backend: PHP, RESTful APIs, MySQL
Tools: VS Code, Git, GitHub, Postman, Xampp
Technologies: CI/CD, DevOps tools(Basics), Agile Methodologies

EDUCATION

Saveetha School of Engineering
Bachelor of Technology in Information Technology; CGPA: 8.0 — July 2022 - June 2026

Vailankanni Matric Higher Sec School
Higher Secondary Certificate (HSC); Percentage: 76% — March 2021 - May 2022

Vailankanni Matric Higher Sec School
Secondary School Leaving Certificate (SSLC); Percentage: 97% — March 2019 - May 2020

EXPERIENCE

Code Fluxz (Intern - Full Stack Java) — July 2025 - Sept 2025

- Engineered digital solutions and contributed to real-world industry projects focusing on Full Stack Java development and assisted in the research, technical analysis, and implementation of robust software architecture.
- Collaborated effectively with the mentorship team under structured guidance to submit quality project deliverables and reports on schedule.

PROJECTS

- **Stall Spot - Campus Food Ordering System**: Developed a campus food ordering system with 3 specialized portals (Student, Admin, Owner). Implemented dynamic features such as pre-parcel ordering to reduce wait times during lunch hours, a wallet payment system with Razorpay integration, and graphical analytics for stall owners.
- **PUPFORD App (Android)**: Developed a React Native mobile application using Agile methodology. Designed and integrated database-driven REST APIs using PHP and MySQL. Participated in requirement analysis, planning, development, and testing phases. Used iterative development to continuously improve application functionality.

CERTIFICATIONS

- Oracle Database SQL Certified Specialist - 82%
- NPTEL Certification: Principles of Management, Internet of Things
